**MARINE INDUSTRIAL MACHINES**

Technology redefined

Since 1991

## THE COMPANY

**Marine Industrial Machines** is the only Indian manufacturers and exporters, who has been offering the full line of marine foods processing equipments, machines and implant fixtures. The recognition earned by them from their valued customers for the state-of-the-art machines and equipments designed by them speaks about their competency and capacity in designing new technologically advanced machines.

All machines and equipments designed by them are approved by the MPEDA and are to comply with E.U. norms. Utmost care has been given in design for easy detachment of machine parts and thorough cleaning to maintain good hygienic condition during and after the operation of the machines.

MIM started its activities in 1991 and reached the present level by consistent hard work with committed talents, who understand the importance of the hygienic good quality marine food products supplied to the rich and taste loving people in the world.

Today they offer customized designs to the processors based on their needs and also give project support to the processing units for an uninterrupted production during the peak season beyond time limit.

Their products mix is illustrated herewith and you are earnestly requested to look at the same for your feed back for timely up gradation, if it is required.

For full details you may kindly visit their website :

We appreciate your queries and solicit your continued patronage.

Looking forward for a meaningful relation.

## OUR PRODUCTS

- **MIM's Online I.Q.F. Processing System**
- **MIM's Automatic Cooking / Blanching Unit**
- **MIM's Headless Head on Shrimps Grader**
- **MIM's Shrimps Grading cum Filth Washing Machine**
- **MIM's Telescopic Type Shipment Loader**
- **MIM's Elevator Type Lift**
- **MIM's Vibrating Feedor Conveyor**
- **MIM's Products Conveying Systems**
- **MIM's Auto Steam Blancher**
- **MIM's Dip Glazer Unit**
- **MIM's Spray Glazer Unit**
- **MIM's Squid Rings Maker**
- **MIM's Fish Feeding Conveyor**
- **MIM's Agitator (Churning Machine)**
- **MIM's Multi Stirrор Agitators**
- **MIM's Defrosting Machine for Pans & Trays**
- **MIM's Fish Slicing Machine**
- **MIM's Cartons Lifting / Handling Conveying System**
- **MIM's Octopus Tentacles Cutting Machine**
- **MIM's Pendulum Type Soaking Machine**
- **MIM's Screw Conveyor**
- **MIM's Bubbles Washing System**
- **MIM's Chemicals/Preservatives Mixer**
- **MIM's Ice Separator Unit**
- **MIM's Deskinning Machine**
- **MIM's Shrimps Washer Machine**
- **MIM's Fish Washing Machine (Surimi)**
- **MIM's Ice Crusher**
- **MIM's Fat Trap System**
- **MIM's Roller Conveyor**
- **MIM's Leeching Tanks (Surimi)**
- **MIM's Metal Detector Conveyor**
- **MIM's Manual Dip Blancher**
- **MIM's Freezing Pan, Peeling and Processing Tables, Showel, Ice Picker, Tubs, Tanks, Trolley, Moping Brush and all other implant handling equipments.**

## OUR PRODUCT RANGE

### MIM'S AUTO STEAM BLANCHER / COOKER

A Specially developed machine with lot of technical advantages as per end user's requirements. Blanching /cooking is possible within seconds with scientifically designed temperature controlling system and steam injecting nozzles. Completely built in high quality S.S. material. Fully insulated tank and unit provides you a complete heat free atmosphere. Up and down easily movable type top cabin and bottom tank helps you to a free after use cleaning.

**Space Required:** 20 ft. long and 5ft. wide.

**Drive Unit:** 2 HP Drive for Blancher Conveyor and 1.5 HP Geared Drive for up and down system

### MIM'S BUBBLE WASHER MACHINE

This machine is for prompt washing of Shrimps / Squids / Cattle fish or any other materials collected in the feeder conveyor attached tank. The dirts, muds and ice pieces mixed with the materials are separated automatically, while the machine is in function. The entire body and structure of this conveyor will be built in food grade Stainless Steel. For conveying the materials forward, it will be used partition type slat on this unit. Provision for waste water removing, after every shift has been given on the system. Designed for hygienic washing with minimum power consumption.

**Space Required:** 12 ft. long and 6 ft. wide

**Drive Unit:** 2 Hp geared drive with 1.5 HP capacity Waterpump

### MIM'S SHRIMPS GRADER

(FOR PUD/HEADLESS AND HEAD-ON)

A perfect solution for washing and grading process of different types of shrimps (P.U.D. / Headless and head-on etc.), with utmost care in handling of materials and complete accuracy in tuning different size grades of shrimps. 10 different grades are available on this unit by Aluminium made rollers arranged in the machine. Digital Display Meters are attached at every Roller-end for having perfect accuracy in tuning of size. For minimum water consumption, the unit is completely run with water recycling system, which also avoids excess spillage of water. For final collection of graded materials, individual chutes and collection conveyors are also provided on this unit. A highly productive unit occupying at very small area of space, functioning with minimum labour involvement. High quality metal made bushes and maintenance free Rollers assure years long uninterrupted production process. The entire unit is run with minimum power consumption. Built in food grade stainless steel materials.

**Capacity:** One ton shrimps Per Hour

**Space Required:** 20 Ft. long and 10 Ft. wide

**Drive Unit:** 3HP monobloc water pump for water recycling system alongwith 1HP Drive 3 Nos. for feeder conveyor, collection conveyor and grade Roller

## OUR PRODUCT RANGE

### MIM'S CARTONS LIFTING ELEVATORS

A continuously running Elevator unit is for conveying materials filled cartons upward or downward in multi storied plants, to be attached in cold Store Room. All floors of store rooms can be connected with this conveying system, which will be a vertically moving lift type one, running in Reverse and Forward form. A complete user friendly system, reducing labours and handling time. With minimum power consumption.

**Drive Unit:** 2 HP Ele. Motor

### MIM'S TELESCOPIC TYPE CARTONS LOADER

A very smooth process of cartons' stacking in container / Truck will be possible on this machine with the help of telescopic type, automatic length extending & reducing system provided inside the device. The 12 Ft. long heavy structured mother unit, standing in a slanted position on wheels' support can be extended upto 40Ft. and more length for stacking process of cartons in container / Truck. Fully a user friendly system, saving the labours and time with minimum power consumption.

**Drive Unit:** 2 Hp geared electrical motor & 0.5 HP Electrical Motor - 1 No. each

**Space Required:** 15 Ft. long mother conveyor unit with 40 ft. and more extendable Length.

### MIM'S HEADLESS / HEAD ON SHRIMPS GRADER

A complete single solution for bulk quantity grading of headless/head on shrimps within no time. Fine, perfect washing and smooth grading are possible on this unit with the help of 2 Nos. washing tanks with conveyor, through which the products get washed first and conveyed for super grading process with the help of 12 Nos. Rollers. Uniformly graded shrimps in 6 different sizes are finaly conveyed through the small conveyor units and collected in tubs/ crates etc. in the delivery end. Completely scientifically designed machine for perfect grading process of bulk quantity shrimps.

**Space Required:** 30 ft. long & 15ft. wide

**Drive Unit:** 1.5 HP Drive Ele. Motor- 4 Nos. and 2 HP monobloc Water pump- 1 No.

## OUR PRODUCT RANGE

### MIM'S SQUID RINGS MAKER

Uniformly cut Squid rings with required size are available through the cutter blades of this machine. Grooved Nylon Slat Conveyor belt with zero maintenance. Optimum production with no wastage. Very user friendly machine operated in minimum power consumption. Built in high quality Stainless Steel to maintain high standards of hygiene. This can also be used for cutting Needles.

**Drive Unit:** 1 HP Drive.

**Space Required:** 6 ft. long and 2 ft. wide.

### MIM'S ICE SEPARATOR

Raw materials collected in tubs are directly dumped in the jumbo tank of this machine for washing and then conveyed for weighing process through this machine. Ice pieces mixed with the products get separated in this machine. And it allows only the products to enter into processing room. A complete labours and time saver device with minimum power consumption. Built in food grade steel.

**Drive Unit:** 2 HP Geared Drive

**Space Required:** 8 Ft. long and 4 ft. wide

### MIM'S FISH SLICING MACHINE

Upgraded edition of all the designs with longer period running and quality improved blades for deheading and slicing of fresh or frozen foods. Very user friendly machine 100 % safe to handle, even freshers can run the machine without any balancing. Vibration less structure allows smooth running of blade. Its crafting is designed to bacteria free corners and edges to maintain highest standard of hygiene. Alongwith a portable type to and fro movable trolley for smooth slicing and slice forwarding channel. Any size of slices ( up to 350 mm ) are possible on this chopper.

**Drive Unit:** 1 HP drive

**Space Required:** 3.5 ft. long and 2 .5 ft. wide and 6 ft. height

## OUR PRODUCT RANGE

### MIM'S MULTI STIRROR SOAKING MACHINE

This system is designed for gentle mixing of preservatives and to have a soft process of soaking of materials, in large quantity. Alongwith automatic type up & down Stirror system. All the stirrers will be designed in self-reducing & increasing type. The machine is available with variable speeds' drive facilities.. It will be fully built in high quality Stainless Steel . Agitators will be with radius corners for smooth touch with the processing products. A complete user friendly system saving time and labours with minimum power usage.

- Drive Unit:** 1 HP Drive with reduction gear.  
**Space Required:** 3 ft. width (Length depending on number of stirrers)

### MIM'S FISH WASHING MACHINE

Very popular and hundred percent result providing machine for fish washing. Normally used in surimi plants. With its heavy structure made body and rotation type tank, effective washing is reflected on products. Filth collection facilities furnished. All high quality Stainless Steel made.

- Drive Unit:** 1.5 HP Geared Drive  
**Space Required:** 8 ft. long and 3.5 ft. wide

### MIM'S PENDULUM TYPE GENTLE MIXER AGITATOR

The machine is for perfect agitation of products in tanks / tubs and for proper mixing of preservatives in the products. Functions with the help of a slowly but steady moving pendulum type to and fro moved, spatula ended stirrer in the tank, which will agitate the entire lot of materials alongwith water in the tank. The system is designed to have smooth touch of stirrer with the products, not making any damage in its head or any part, while functioning.

- Drive Unit:** 1 HP Drive with Reduction gear  
**Space Required:** 3 Ft. long and 4Ft. wide

## OUR PRODUCT RANGE

### MIM'S DEFROSTING MACHINE

Effective defrosting within seconds and with no damage on your pans/trays or slabs. Specially designed in wire mesh conveyor belt with water recycling system. Functioning with minimum power consumption. Highly productive unit, completely built in high quality Stainless Steel materials.

**Space Required:** 12 ft. long and 2 ft. wide.

**Drive Unit:** 1.5 HP Drive With Reduction gear & 2 HP Monoblock pump for water recycling system.

### MIM'S CHURNING MACHINE / AGITATOR

Two in one type washing and normal hardening machine / churning Machine for shrimps, squid and cuttle fish. Optimum production as per capacity of tank. Available in various capacities. User friendly machine with automatic stoppage. Crafted in multiple stirrer facility as per customer's requirement for quick mixing. Alongwith trolley attachment for easy transportation in plants. Food grade oil and grease applied with leak proof top covers.

**Drive Unit:** 1HP Drive with reduction gear.

**Space Required:** 3.5 ft. long and 3.5 ft. wide.

### MIM'S ICE CRUSHER

Designed in heavy structural frame for any roughly running plant. All size of ice blocks can be fed in this unit. Built in high quality Stainless Steel recommended for E.U. Plants. Alongwith trolley for easily transportation purpose. Size of ice pieces required are adjustable. Available in various sizes.

**Drive Unit:** 5 HP or 3 HP Drive

**Space Required:** 5 ft. long and 3 ft. wide.

## OUR PRODUCT RANGE

### MIM'S TWO IN ONE TYPE ICE CRUSHER

A compactly designed machine for crushing both ice blocks and cube ices through single device, for availing bacteria free ice pieces in solid small blocks, flake form or in powder form. Fully built in high quality steel. It easily delivers ice pieces within seconds of feeding, through the ice forwarding chutes provided inside the system. A perfectly suitable machine for pans and plate freezer users. Single operator required.

**Drive Unit:** 5 HP Drive

**Space Required:** 4 Ft. long and 3 ft. wide

### MIM'S PRESERVATIVES MIXER

Providing a soft contact between oaredened blades (stirrers) and materials fed in tank, this unit helps you to mix the preservatives very gently. Up & down lifting type liver attached device assures a prompt but fast productivity. Alongwith trolley attached tank for free movement in plants. Materials used for construction is high quality food grade Stainless Steel.

**Drive Unit:** 1 HP Drive with reduction gear.

**Space Required:** 4.5 ft. long and 4 ft. wide.

### FREEZING PAN

Fully built in marine grade alumunium material / food grade stainless steel materials. It is Specially designed for the proper and perfect shape of the frozen fish's slabs of respective weights. Its 2 Nos. top lids are designed for spill - free operations, while handling. No additional tray / supports are required for this pan, while keeping in freezer unit. Handle provided in one side helps for a smooth and damage free operation.

**Sizes Available for :** 2 kg and 1 kg material freezing

## INPLANT ACCESSORIES

Processing Table

Fish Cutting Table

Peeling Table

Fish Processing Table

Test Mat Table

Roller Conveyor

Platform Trolley

Tunnel Trolley

Lockers

Tank Trolley

Weighment Jali

Four Slap Tray

Weighing Funnel

Hose Mounting Stand

Drainage Jali / Mop Brush

Freezing Tray

Shovel

Pallets

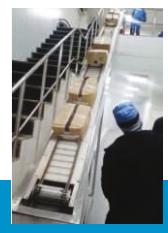

Tub Stand

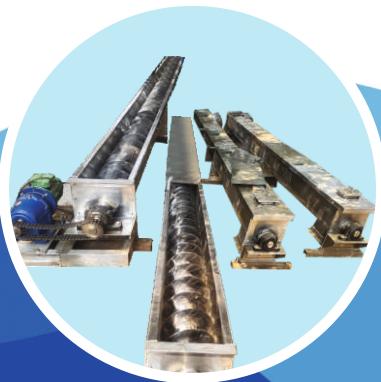

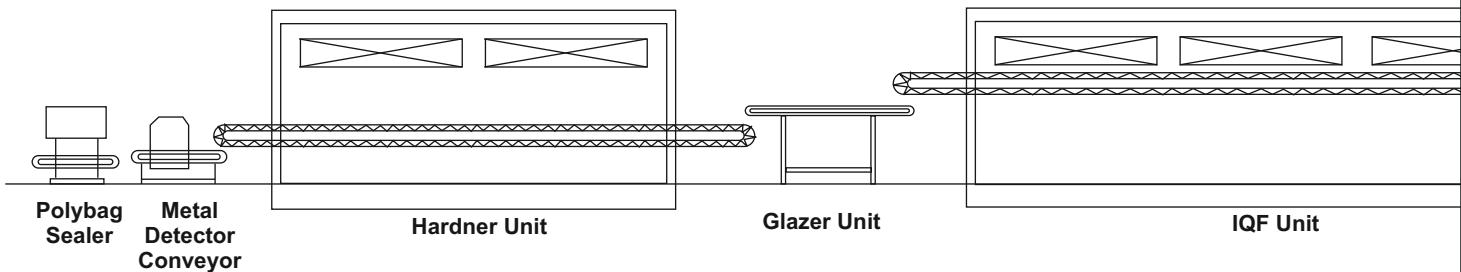

Gum Boot Stand
